25X1A6a 1. ORR has been assigned four (4) of the OCI position slots with the [REDACTED]. All of these slots are now encumbered.

2. A principal ORR concern with the [REDACTED] is to stimulate and guide the military and covert collection as to types of economic data required for our use. Experience has indicated that on-the-job personal contact and technical assistance has resulted in considerable speed-up in the flow of economic data as well as in the improvement of the type and quality of economic intelligence dispatched. Any curtailment of this already successful venture would seriously handicap the production of economic intelligence not only on the European satellites but also on the USSR.

3. In all other respects, this Office concurs in the statement of the AD/CI of 16 October with respect to [REDACTED]
